# POLYCARBONATE SHEET

## marlon fs

### Flat Polycarbonate

A superior solution, particularly when safety or impact resistance is of vital performance. Highly versatile, Marlon FS can be used in a variety of applications including printing, machining, cold bending, thermoforming and vacuum forming.

- Good printability
- Easily fabricated
- High impact resistance
- Excellent thermoforming properties
- Lightweight
- High light transmission
- 10 year warranty

**Available Thicknesses**  
.030" – .591"

#### Dimensions

48"x96", 80"x120"

Other dimensions are available upon request, subject to a minimum order

#### Colors

Clear, Bronze, Opal

#### Options

UV Protection on one or both sides available

#### Finish

Gloss, Non Glare Satin, Embossed

# PET SHEET

## marpet-g fs

### PETg Flat Sheet

Marpet-g FS is a clear transparent PETg flat sheet which offers excellent strength, outstanding optical clarity, superior chemical resistance, durability, fire performance and is 100% recyclable. Ease of workability and thermoformability at low temperatures make this material a popular choice for fabrication in print and display applications.

- Optically clear and transparent
- Excellent thermoforming properties
- Easily machined and fabricated
- Superior chemical resistance
- Fire performance
- Good printability

**Available Thicknesses**  
.020" – .472"

#### Dimensions

48"x96", 80"x120"

Other dimensions are available upon request, subject to a minimum order

#### Colors

Clear

#### Options

UV Protection on one or both sides available

#### Finish

Gloss, Non Glare Satin

## marpet-a fs

### aPET Flat Sheet

Combining exceptional quality, excellent transparency, impact strength, chemical resistance and fire performance, Marpet-a FS is ideal for applications which require its high performance characteristics and processability. Its ability to cost effectively machine, cold bend and print lends Marpet-a FS particularly well to fabrication of items for the visual communications sector.

- High optical grade material
- Good scratch and scuff resistance
- Temperature range -20°C to + 60°C
- Suitable for cold bending

**Available Thicknesses**  
.020" – .080"

#### Dimensions

48"x96"

Other dimensions are available upon request, subject to a minimum order

#### Colors

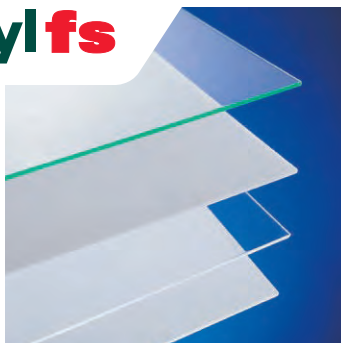

Clear

#### Finish

Gloss, Non Glare Satin

# ACRYLIC SHEET

## marcryl fs

### Flat Acrylic

Marcryl FS is a quality extruded acrylic sheet with high gloss finish, good optical clarity and excellent weatherability.

- Easily fabricated
- High optical clarity
- Excellent thermoforming capabilities
- Outstanding weatherability

**Available Thicknesses**  
.080" – .394"

#### Dimensions

48"x96", 80"x120"

#### Colors

Clear

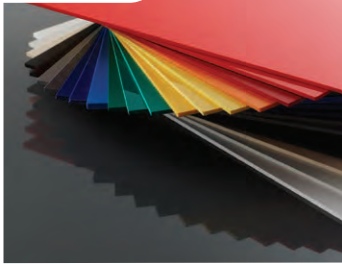

#### Specials

Opal and Silica Green available on request

# FOAM PVC SHEET

## foamalux COLOUR

### Colored Foam PVC

Available in a choice of 6 colors as standard, Foamalux Color provides the ultimate palette available for sign, print and display.

- Consistent surface
- Vibrant colors
- Direct to print
- Quality vinyl adhesion
- Easily fabricated, cut and routed

#### Available Thicknesses

3mm, 5mm

#### Dimensions

48"x96", 80"x120"

Other dimensions are available upon request, subject to a minimum order

#### Colors

Black, Blue, Green, Grey, Red, Yellow

Custom Colors are available upon request, subject to a minimum order

## foamalux WHITE

### Bright White Foam PVC

Foamalux White is a brighter white color formulation which optimises reproduction capabilities and UV stability to achieve outstanding print clarity and quality.

- Bright white color formulation
- Consistent surface
- Hard flat rigid sheet
- Direct to print
- Excellent color reproduction
- Easily fabricated, cut and routed

#### Available Thicknesses

1mm-24mm

#### Dimensions

48"x96", 50"x100", 60"x120", 80"x120"

Other dimensions are available upon request, subject to a minimum order

## foamalux XTRA

### Recycled Foam PVC

The green alternative, Foamalux Xtra comprises a recycled black core, sandwiched between one or two surfaces of premium quality virgin white PVC.

- Recycled black core
- Bright white surface
- Direct to print
- Quality vinyl adhesion
- Easily fabricated, cut and routed

#### Available Thicknesses

3mm-19mm

<10mm Single sided bright white surface with recycled black underside

>10mm Double sided bright white surface with recycled black underside

#### Dimensions

48"x96", 60"x120"

Other dimensions are available upon request, subject to a minimum order

## foamalux ULTRA

### Gloss Foam PVC

Foamalux Ultra is a strong and durable rigid foam PVC sheet with a high gloss finish, giving it a high end appeal.

- Quality gloss surface
- Vibrant colors
- Direct to print
- Quality vinyl adhesion
- Easily fabricated, cut and routed

#### Available Thicknesses

3mm, 5mm

#### Dimension

48"x96"

Other dimensions are available upon request, subject to a minimum order

#### Colors

White, Black, Blue, Green, Grey, Red, Yellow

## foamalux CALIBRE

### Calibrated Foam PVC

Manufactured using exciting new technology, Foamalux Calibre has an exceptionally hard silky smooth finish but with an extremely light weight core.

- Premium silky smooth surface
- Easy to cut and router
- Excellent printability and graphics adhesion
- Extremely lightweight and easy to handle
- Strong and durable rigid board
- Moisture resistant and impermeable
- Dimensional stability
- Chemically-resistant and non-corroding

#### Available Thicknesses

10mm-30mm

#### Dimension

48"x96"

Other dimensions are available upon request, subject to a minimum order

#### Colors

White

Custom Colors are available upon request, subject to a minimum order
