THE NATURAL CHOICE FOR NATURAL LIGHT

With over 60 years' experience in providing daylight solutions Brett Martin Daylight Systems has built up the most advanced range of skylight and wall-light products available including industrial skylights, panel glazing systems, vaults, architectural skylights and domes; and has an impressive global portfolio of projects from airport hangars and shopping malls through to warehousing and stadia.

All products are manufactured in the UK in quality approved factories and meet the most stringent

legislative and industry requirements and backed with comprehensive product guarantees with some products carrying FM and BBA approvals.

In addition, the Company has built up partnerships with designers and contractors in the GCC to provide expert and impartial technical advice including:

- Site inspection to inform initial design recommendations
- On-site measurement for the production of technical drawings
- Skylight specification recommendations to satisfy safety classifications, fire performance etc
- On-site inspection

Therefore, involving Brett Martin in the early stages is key to ensuring your projects meet and exceed design and performance criteria.
