

Company Profile

Skylights & Panel Glazing

Middle East

DESIGNING FOR DAYLIGHT

ENGINEERED TO
EXCELLENCE

Welcome

Headquartered at its original founding site, our company has grown into a global leader, now employing over 1,000 talented professionals across multiple locations throughout the UK, Europe, and beyond.

From humble beginnings, we have evolved into an international business with a broad reach, serving a wide variety of industries across the globe.

Our extensive product portfolio includes a wide range of premium plastic sheets, expertly engineered skylight systems, and state-of-the-art plumbing and drainage systems. These products are designed and manufactured to meet the highest standards, catering to the diverse needs of our customers across multiple sectors. Whether it's a complex architectural project or a huge industrial warehousing development, we have the experience and expertise to deliver.

At the core of our success is our unwavering commitment to innovation. We continuously invest in the latest manufacturing technologies and prioritise product development. Our dedication to excellence ensures that we remain at the forefront of our industry, delivering innovative, sustainable, and future-focused solutions that drive success for our clients worldwide.

Our Story

Committed to Middle East success

Our Middle East team has forged strong, strategic relationships with world-renowned partners and suppliers, playing a crucial role in bringing cutting-edge daylight system technologies to the construction industry.

Their expertise and dedication have been instrumental in driving innovation and delivering high-quality solutions that meet the region's growing demand for advanced architectural systems.

Through close collaboration and a deep understanding of client needs, Brett Martin has secured prestigious projects with some of the Middle East's most prominent brands.

Our long-standing partnerships and commitment to excellence have enabled us to be a trusted partner on some of the region's most iconic developments, reinforcing our reputation as a leader in the construction sector.

Our Sustainable Future

At Brett Martin we are committed to a lower carbon future.

We are at the forefront of the drive to reduce embodied carbon through efficient manufacturing and the lowering of operational carbon in buildings through the design of energy saving roofing products.

Our policy to Reduce, Reuse and Recycle is lessening our impact on the environment with innovative investments in renewable energy, recycled resources and bio-based materials, across our business.

Partnering with Brett Martin is an effective way to introduce intelligent carbon solutions to your next development project.

Brett Martin HQ
Mallusk, Co. Antrim

Our membership of Planet Mark's Net Zero Programme represents the way we measure and reduce our carbon use as we work to build a sustainable brighter future for us and our planet.

Our dedicated 6.42 MWp solar farm provides clean energy and saves 900 tonnes of CO₂ each year.

Our 2.3MWp wind turbine towers 99.5m above our site and saves 832 tonnes of CO₂ each year.

Our Marlon BioPlus Clickfix Façade system is manufactured from a remarkable material with an 89% carbon reduction and is produced with 100% renewable energy.

Our Divisions

Daylight Systems

Brett Martin is the UK and Ireland's leading skylight manufacturer. Over the last 60 years, the company has built up a portfolio of skylight systems including site and factory assembled skylights, domes, vaults and panel glazing suitable for application in a range of building types.

All skylights are precision engineered to the exact specifications and tolerances in our purpose built UK factories which operate to rigorous EN 2001:2008 quality standards and ISO 14001 environmental accreditations. We hold ISO9001 accreditation.

Plastic Sheets

With over 30 years experience in the semi-finished thermoplastic sheet industry, Brett Martin has built a global reputation for our range which includes Polycarbonate, PVC, Foam PVC, PET, Acrylic and GRP. Our extensive portfolio can be seen in skylights, glazing, fabrication, printing, signage and display.

Plastic Sheets are manufactured in BS EN 9001:2008 accredited factories. With our commitment towards product innovation, we have seen new additions such as **Marvec FS Bio**, **Foamalux White** and **Marlon Clickfix** which is a seamless architectural glazing system.

Plumbing & Drainage

As the largest manufacturer of plumbing and drainage products in the UK and Ireland, Brett Martin supply an extensive range of underground, rainwater, and plumbing systems including the innovative cast iron style Cascade Rainwater and Soil system, all manufactured to BS EN 9001:2008 and the latest industry standards.

With our four regional distribution depots, an extensive distribution fleet, national sales and technical support every customer is guaranteed the highest quality service possible.

Our Accreditations

Our extensive product range is manufactured in the UK at Brett Martin's EN ISO 9001 accredited facilities, and all products are fully certified (BBA, BSI, CE, CoC, EPD to UAE fire code).
