

ROOFING & CLADDING SYSTEMS RANGE

Marlon CST Heatguard

The optimum combination of daylight and heat reduction

15 YEAR
WARRANTY

Brett Martin brings a comprehensive range of roofing and cladding systems to the agricultural and equestrian markets, supported by a nationwide logistical operation and customer service team.

A close-up photograph of several black and white cows in a barn, looking towards the camera. They are wearing yellow ear tags and are positioned behind a wooden fence with hay in the foreground.

Marlon CST Heatguard

The optimum combination of
daylight and heat reduction

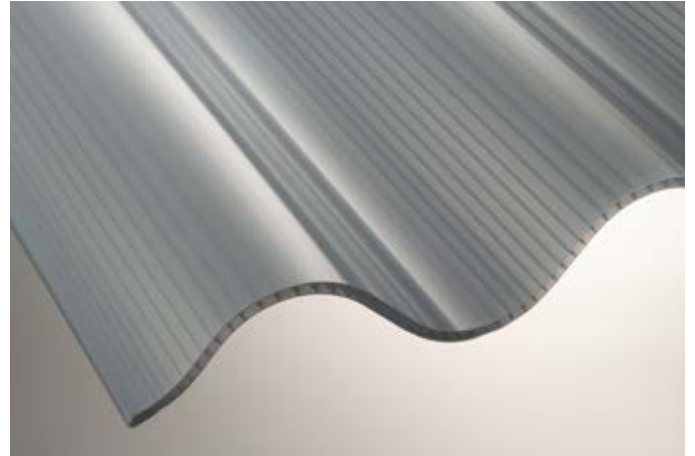

An aerial photograph of a large, modern agricultural building with a grey metal roof and a large green water tower, situated in a rural area with green fields and other farm buildings.

“ To me Marlon CST Heatguard is a game changer within livestock buildings. The cows are far happier and healthier, their hide is in great condition. Conception rates are better, milk yields are up and replacement rates have improved. ”

Marlon CST Heatguard

Corrugated 6mm Triplewall Polycarbonate

- Up to 36% light transmission
- Heat reflecting pigment reduces solar heat gain by up to 68%
- Light in weight - 8 times lighter than fibre cement sheets
- Choice of three pigment intensities to suit specification

COLOUR	TRANSMISSION	
	LIGHT	SOLAR
HG100 (RG)	10%	10%
HG50 (EGWR)	20%	18%
HG25 (COQ)	36%	32%

Marlon CST Heatguard has been developed with an advanced heat reflective pigment allowing high levels of natural daylight to be transmitted into buildings whilst significantly reducing heat transfer. The result is a bright building with a controlled and comfortable temperature internally which is beneficial to the wellbeing and productivity of animals.

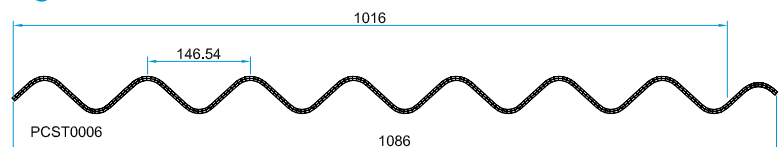

insulation and rigidity. It can be used as a complete roof covering or wall cladding material or combined with fibre cement sheeting.

Marlon CST Heatguard is available in three pigment intensities to suit specification.

Marlon CST provides all the durability and impact resistance of corrugated polycarbonate sheet whilst the multiwall structure adds

Big Six

15 YEAR WARRANTY

We manufacture Marlon CST using superior materials to provide our industry leading 15 year UK and Ireland warranty. This covers light transmission and weather breakage. See our warranty document for full terms and conditions.

Roofing, Cladding & Drainage

Marlon CS

Corrugated Polycarbonate Sheet

Known for its superior strength and high levels of glass-like optical clarity. Used as a complete roof covering or with corrugated metal roofing and cladding systems.

Trilite GRP

Corrugated GRP Sheet

A cost-effective sheet compatible with metal or fibre cement roofing or side wall systems. Provides a diffused natural daylight to minimise distracting shadows.

Onduline

Corrugated Bituminous Roofing Sheet

Made from bitumen saturated organic fibres, this is an environmentally friendly roofing option. These tough, yet lightweight sheets are guaranteed waterproof for 15 years.

Marvec CS Agri

Corrugated PVC Liner Sheet

A chemically resistant and durable interior cladding for walls and ceilings of agricultural buildings. Provides a smooth surface for ease of sanitary maintenance.

Marvec FS

PVC Hygienic Cladding Sheet

An economical solid PVC sheet for cladding walls and ceilings of farm buildings. The satin finish provides a super tough and clinically clean finish. Accessories available.

Rainwater Systems

uPVC Gutter System - Deepstyle 170mm

For maximum roof drainage on agricultural buildings, this gutter system is tested to BS EN 1462 Load Class H and comes with a 10-year warranty.
