Brett Martin is a leading international manufacturer of a range of sign and display substrates. The company works in partnership with a world-wide network of distributors to supply the versatile and durable Foamalux range.

Design, create and innovate with Foamalux Foam PVC.

With bright white, matt and gloss colours, and, environmentally friendly options for digital and screen printing, cutting, routing, engraving, forming, vinyl graphics, bending, shaping and bonding – there has never been a greater choice.

Brett Martin is a leading international manufacturer of a range of sign and display substrates. The company works in partnership with a world-wide network of distributors to supply the versatile and durable Foamalux range.
Strong

Offering an exceptional strength to weight ratio, Foamalux provides a rigid sheet which is durable and offers superior resistance to knocks and scratches.
Lightweight

Even in large format, Foamalux is only a fraction of the weight of solid display material of similar strength, making it much easier to handle and install.

Versatile

The extensive Foamalux range combined with the wide number of processing possibilities leads to an infinite number of applications.
Smooth

The smooth, flat and flawless surface of Foamalux provides a consistently even and reliable high performance surface for different types of printing and mounting.
**Fire retardant**

Foamalux typically achieves Class 1Y Surface Spread of Flame in accordance to BS 476: Part 7. Other European certification is also available.

**Performance**

Foamalux is a versatile and flexible material which processes with ease to provide an exceptional finish whatever the requirement.
The Vibrant Colour Range

The depth and intensity of colour combines with the ultimate silky smooth matt surface finish to make Foamalux Colour the best coloured Foam PVC sheet on the market. Available in a choice of 15 colours as standard, Foamalux Colour provides the ultimate palette available for sign, print and display.

- Wide range of vibrant colours
- Consistent smooth matt surface
- Strong, durable rigid sheet
- Half the weight of solid sheet
- Ideal for applying vinyl graphics
- Suitable for direct to substrate digital printing
- Exceptional surface for screen printing
- Easily fabricated

Did you know?
The Chameleon can change its skin colour depending on its mood and physical condition. Changing its colour is also a way of communicating with other chameleons. And did you also know that Chameleons don't change their colours to suit their backgrounds?

Colours shown are a representation for illustrative purposes. Please refer to range card.

Foamalux Colour Sizes
- 1220 x 2440* 3 & 5mm
- 2050 x 3050 3 & 5mm

*Limited to six colours

Limited Edition Sizes
- 2050 x 3050 3mm
High Gloss Surface

Foamalux Ultra is a strong and durable rigid foam PVC sheet with a high gloss finish, giving it a high end appeal. The co-extruded gloss surface gives improved UV protection and stability over standard foam PVC. Foamalux Ultra is available in white plus 6 deep intense colours including Red, Yellow, Green, Blue, Grey and Black.

- High quality gloss surface
- A range of vibrant colours
- Enhanced UV protection
- Strong, durable rigid sheet
- Half the weight of acrylic sheet
- Ideal for applying vinyl graphics
- Suitable for digital printing
- Good surface for screen printing
- Easily fabricated for 3D displays

Brightest White Sheet

Extensive research into colour pigmentation has led to the development of a brighter white colour formulation throughout the Foamalux range which optimises reproduction capabilities and UV stability to achieve outstanding print clarity and quality. The finely balanced blend of pigments in Foamalux White provides a perfectly clean, crisp printing surface resulting in a noticeably brighter and truer print finish, achieving optimum print clarity of the highest quality. Foamalux White also provides an ideal bright white surface for traditional sign and display applications.

- Bright white foam pvc sheet
- UV stable colour formulation
- Consistent silky smooth matt surface
- Smooth flat rigid sheet
- Suitable for direct to substrate digital printing
- Good surface for screen printing
- Ideal for applying vinyl graphics
- Excellent colour reproduction
- Superb output quality

Did you know?
Morpho butterflies which are found primarily in forests of the Amazon and Atlantic are coloured in metallic, shimmering shades of blue and green. The Morpho Rhetenio Butterfly uses the lamellate texture of its coloured wings to protect it from UV light.

Recycled

Make a greener choice with Foamalux Xtra, the environmental range of Foam PVC from Brett Martin. Manufactured from recycled foam PVC recovered from production and post consumer waste, Foamalux Xtra Foam PVC is the green alternative. Foamalux Xtra comprises a recycled black core, sandwiched between one or two surfaces of premium quality virgin white PVC, providing the optimum surface for any sign and display application. Containing up to 80% recycled content Foamalux Xtra is the environmentally friendly sign and display solution.

- Environmentally friendly
- Recycled black core
- UV stable bright white surface
- Consistently smooth and even
- Hard and resilient
- Quality digital and screen printing
- Excellent vinyl adhesion
- Single or double sided sheet formats
- Range of thicknesses 3-19mm

Did you know?
When a Hermit crab gets too big for its shell, it recycles it by shedding its own for someone else to have and moves on to find another bigger one.
