

Cleaning

In order to maintain Marcryl FS in a good condition it is recommended that the sheet be cleaned periodically using suitable household cleaning agents.

The recommended cleaning instructions are as follows:

use lukewarm water to rinse and soften dirt

- make up a solution of lukewarm water and ordinary household cleaner or mild soap and use this to wash the sheet
- a sponge or soft cloth should then be used to gently remove dirt and grime
- ethyl alcohol used sparingly can be used to remove paint and other such substances
- the cleaning process should then be repeated and the sheet rinsed with clean water and dried with a soft cloth

Warning

The following precautions should be observed:

- do not scrub the sheet with brushes or sharp implements
- do not use squeegees
- avoid any abrasive cleaners or solvents
- avoid cleaners of a highly alkaline composition
- never wipe dry surfaces
